

DuraVision™
Corrections Mirrors

Prison Cell Observation Mirrors

*"DuraVision
Cell Observation
Mirrors provide
safe and reliable
viewing..."*

Designed specifically for prisons, jails and other secure corrections facilities, the DuraVision Cell Observation or Surveillance Mirrors provide safe and reliable viewing of inmates and patients and are virtually unbreakable and LIGATURE FREE.

Manufactured using the highest quality materials, these mirrors are available in a variety of styles and sizes using either a Polycarbonate or Stainless Steel face.

Having been designed in conjunction with prison architects and approved by the UK Home Office London (England), Metropolitan Police London (England), Australian Prison Service as well as New Zealand and USA Corrections Departments.

DuraVision Corrections Range of mirrors are installed in numerous Corrections and Health Institutions world-wide where they are the mirror of choice in high risk areas.

To provide a higher level of safety to officers and inmates, these robust mirrors are essential.

*"Unique tamper
proof frame is
virtually ligature
free ..."*

Purpose

- Improve inmate cell safety
- Improve corrections officer safety on cell duty
- Improve efficiency of cell inspections
- Improve surveillance of visitor areas
- Improve safety in communal areas
- Eliminate blind spots where attacks and collisions are possible
- Ligature free design reduces the risk of suicides
